

KOENIG & BAUER

Omega Aplus 70 – 90 – 110

Advantages

Top of the line in highspeed folding carton production due to maximum belt speeds of up to 600 m/min

Innovative solutions to match individual demands and production conditions

Huge production capacity and outstanding performance thanks to a wide range of automation features, e.g. intelligent automatic setup with calculation from carton drawing

Intuitive touchscreen operating concept for ultimate ease of operation and process automation

Preset capabilities at the highest level significantly reduce make-ready times during job changes

Process optimisation due to the flexible integration of peripheral systems before and after the gluing process

Maximum substrate flexibility for nearly all cardboard materials in the range from 200 to 550 g/m²

Precise, error-free folding and gluing for reduced waste and economical resource use – irrespective of the product type and shape

we're on it.

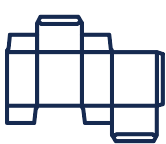

KOENIG & BAUER

The answer for fast job changeovers and high-speed production

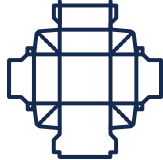

The highly automated folder-glueers of the Omega Alius series stand for maximum productivity in modern folding carton production. Innovative automation features ensure extremely short make-ready times during the job changes and enable high-speed folding box production with belt speeds of up to 600 m/min. Presented in 3 sizes from 70 to 110 cm width, Omega Alius folder-glueers produce straight line, double wall and optional crash lock and 4&6 corner boxes with single finger servo backfold system.

Customised peripheral modules extend the capabilities of the Omega Alius series. This enables you to deliver folding boxes on time in the highest quality.

The Omega Alius is the answer for fast job changeovers and high-speed production in your daily business to meet all your customers' expectations.

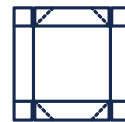

Straight-line

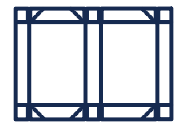

Double-wall

Optional: Crash-lock

Optional: 4-corner

Optional: 6-corner
