

KOENIG & BAUER

# Omega Intro 110 – 165

## Benefits

Impressive price-performance ratio

Process optimisation due to the flexible integration of peripheral systems before and after the gluing process

Powerful performance with maximum belt speeds of up to 300 m/min

Motorised adjustment of the transport belts for fast makeready

Precise handling of folding cartons across the substrate range from 300 to 500 g/m<sup>2</sup>

Intuitive touchscreen operating concept for convenient operation

High flexibility for the folding and gluing of all standard and custom carton forms with format widths from 96 mm to 1,650 mm

Precise, error-free folding and gluing for reduced waste and economical resource use – irrespective of the product type and shape

we're on it.

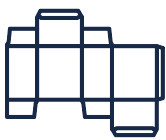

# KOENIG & BAUER

## For your first steps into state-of-the-art industrial folding carton production

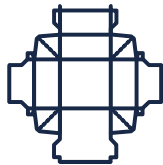

The Omega Intro product line offers everything you could ever need for industrial folding carton production. It excels in daily operation with an unbeatable price-performance ratio and maximum productivity. Reduce your production times and costs thanks to fast makeready, straightforward handling at job changeovers and belt speeds of up to 300 m/min.

Peripheral modules, tailored to your individual production demands, amplify the performance capabilities of the Omega Intro, and you can be sure to deliver finished folding cartons that satisfy all your customers' expectations.

**The Omega Intro is the ideal choice for a successful start to state-of-the-art folding carton production.** Produce efficiently and in top quality.
